MEMORANDUM FOR: Director

After yesterday's conversation with you, I asked for the attached memo on the direct consequences of the negative vote on foreign aid.

Although the two bills involved in the Senate vote amount to more than \$6.2 billion, they do not include other foreign military and economic loans, assistance and sales covered by other legislation. AID is taking the position that \$3.4 billion in the pipeline will be cut off after 15 November because there will be no money for paying the AID personnel that run the programs.

  
Ed Proctor
